Professional Summary

Results-oriented Full Stack Engineer with **5+ years of experience** building scalable enterprise applications. Expert in **C#, ASP.NET Web API, and Oracle SQL**, with versatile frontend proficiency in **Angular and React**. Proven track record of optimizing application performance by **80%** and driving cost-saving initiatives. Experienced in Agile environments, microservices architecture, and cloud-native development on Azure.

Technical Skills

- **Frontend:** Angular (v8+), React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, D3.js, Bootstrap.
- **Backend:** C#, ASP.NET Web API, ASP.NET MVC, .NET Core, Node.js, RESTful APIs.
- **Database:** Oracle SQL, PostgreSQL, SQL Server.
- **Cloud & DevOps:** Azure (AI-900, AZ-900 Certified), Azure DevOps, CI/CD Pipelines, Docker.
- **Tools & Concepts:** Git, Jasmine, Karma, SonarQube, MSAL (Auth), Agile/Scrum, Data Structures & Algorithms (DSA).

Professional Experience

Deloitte Hyderabad, India

Consultant (Full Stack Developer) June 2025 – Present

- Spearheading the development of robust web solutions using **ASP.NET MVC** and **Web API**, ensuring high availability and scalability for critical business functions.
- Developing dynamic, responsive user interfaces leveraging both **Angular** and **React**, creating a seamless cross-platform user experience (Hybrid Frontend Engineering).
- Designing complex schemas and optimizing **Oracle SQL** queries and stored procedures, significantly reducing data retrieval latency for high-volume transactions.
- Architecting secure RESTful endpoints to facilitate seamless communication between frontend clients and server-side logic.

- Enforcing strict coding standards and conducting code reviews to maintain clean, maintainable, and efficient codebases.

Accenture Bengaluru, India

Full Stack Engineering Senior Analyst March 2022 – June 2025

Full Stack Engineering Analyst September 2020 – March 2022

Project: Asset Data Hub (Analytics Web App)

- Architected a Data Analytics Web Application from scratch using **Angular, ASP.NET, and Knowledge Graphs**. [cite_start]
- **Cost Reduction:** Replaced licensed Power BI charts with custom **D3.js** visualizations (Bubble Charts, Tree Maps), resulting in **\$5,000+** in project cost savings[cite: 90]. [cite_start]
- **Performance Tuning:** Enhanced application load times by implementing **lazy loading, virtual scrolling, and typeaheads**[cite: 87]. [cite_start]
- Developed comprehensive unit tests using **Jasmine & Karma**, utilizing SonarQube to ensure code quality[cite: 89].

Project: SaaS Web Application

- **Performance Boost:** Improved overall application performance by **80%** through the implementation of Shared Modules and removal of boilerplate code[cite: 104]. [cite_start]
- Designed a secure authentication layer using **MSAL (Microsoft Authentication Library)** to streamline user access[cite: 99]. [cite_start]
- Managed **Azure DevOps CI/CD pipelines**, ensuring efficient, automated deployment processes[cite: 102]. [cite_start]
- Developed **100+ User Stories** and resolved **300+ defects**, maintaining strict adherence to SLAs[cite: 38, 39].

Education

Bachelor of Technology: Computer Science Engineering 2016 – 2020

Karunya University, Coimbatore [cite: 76]

Certifications

- **AI-900:** Microsoft Azure AI Fundamentals [cite: 78] [cite_start]
- **AZ-900:** Microsoft Azure Fundamentals [cite: 79]

Honors & Awards

- **ACE'23 Extra Mile Award:** Recognized for outstanding contribution to offshore delivery at Accenture[cite: 81]. [cite_start]
- **ACE'22 Performer of the Year:** Awarded for consistent high performance and technical excellence[cite: 82].

Additional Projects

[cite_start]**Alzheimer's Detection (Deep Learning)** [cite: 106]

- Developed a predictive model using **Python, CNNs, and TensorFlow** to analyze MRI data from the ADNI database, focusing on medical image processing accuracy[cite: 109].
